

# 1 Choose Your Platform(s)

→ **Just Right for the Way You Work**

 <h3>Web Dashboard</h3> <p>See your data the way you want and get shortcuts to important actions. Get alerted to exceptions and automate daily reports.</p>	 <h3>Mobile Application</h3> <p>Communicate and capture data from the field with a company app! Track people, jobs, and information the way you need.</p> <p><i>iOS / Android</i></p>
--	--

Select exactly what your company needs to document, leverage, communicate, and control.

Tailored software that brings your team together **where it matters.**

# 2 Select Your Modules

 <h3>Estimating</h3> <p>Build accurate estimates, generate professional proposals, and integrate with resource planning workflows. Land and kickoff more jobs in less time!</p>	 <h3>T &amp; M / Work Orders</h3> <p>Sync labor, equipment, materials, and documentation the way you want. Alert stakeholders, track approvals, and capture bigger margins!</p>	 <h3>Scheduling</h3> <p>Quickly assign workers and send job information. Alert your team with simple mobile assignments and connect with time tracking!</p>	 <h3>Time &amp; Field Data</h3> <p>Instantly capture worker/ crew time and daily job forms configured to your business. Collect photos or notes and automate data reporting!</p>
 <h3>Job / Project Management</h3> <p>Gain real-time visibility into status, productivity, and material usage. Manage tasks, files, and project metrics that are relevant to your business.</p>	 <h3>Resource Planning</h3> <p>Easily monitor short and long term labor needs for jobs. Identify gaps, reduce waste, and visualize where your company is going.</p>	 <h3>Assets / Maintenance</h3> <p>Know the status of equipment, tools, machines, or vehicles. Track requests and utilization while reducing costs.</p>	 <h3>Job Costing</h3> <p>Plan and review forecasted, estimated, committed and actual costs. Report on utilization, profitability, revenue, and expenses.</p>
